

January 2019

Art in the Park is Growing Exponentially

Art in the Park, presented by The Art Village, has been a Woodford County favorite for over 10 years. Each year we have seen a growth in the number and variety of vendors and a growth in the number of attendees. In 2018 we had approximately 8,000 attendees. This year we expect to double that number because:

We are adding several new People Pleasing Events

Live bands playing on stage all day	Children’s Game Zone	John’s Run Walk Shop is sponsoring a 10K race ending at the Art Fair	Food Trucks with a variety of Fair Food will be at the event.
-------------------------------------	----------------------	----------------------------------------------------------------------	---------------------------------------------------------------

- This year we will have more vendors than ever before
- We are increasing our advertising so that a larger group of people will be aware of the Art in the Park’s dates, times, and sponsors.
- We are finding more ways to advertise our sponsors—increased numbers of banners, adding your company address or phone number on website/Facebook, live announcements of sponsors from the stage
- Our attendees will stay for a longer time because of the entertainment, so your business name will be seen more often and for a longer time.

Since the days of Mozart advertising has been the stimulus of every economy—large or small. Your company can be a sponsor of this year’s Art in the Park and successfully reach out to the people that buy your products and services. Use the application on the next page to promote your company and support this community activity.
